

I personally request that you reject NAB's petition 04-160. I am a recent subscriber to XM satellite radio. One of the main reasons I chose XM is that I recently moved from Florida to Tennessee and I miss being able to hear what is happening in my former home market. Not only can I hear syndicated shows from one of my favorite radio stations, I can also hear the weather and traffic from Orlando. My parents still live there and having this type of connection to my previous home area. I also enjoy being able to hear the variety of programming that I can not hear via FM or AM landbased broadcasts in the Nashville area. XM radio provides the end consumer with the power of choice. I can find what I want, when I want, anywhere I want. The fact that I can use it in my vehicle, office, and home sold me on the package. I believe in consumer choice, and XM is providing me that opportunity. Respectfully,
Stephen Vail
